

## WHY DO WE DO NEIGHBORHOOD-LEVEL PLANNING?

The City's Comprehensive Plan calls for the development of specific area actions plans.

### Neighborhood-Level Planning-

- Creates **opportunity for dialog** between the City and neighborhoods
- **Engages neighbors** that would otherwise not have come to the City to voice concerns
- Lets the City know what your **vision** is for your neighborhood -what do you want it to look like in 10, 20 or 50 years?
- Involves the community in setting **priorities** in their neighborhoods and channeling those priorities into service delivery methods and ultimately into the City budget
- Improves **service delivery** by tailoring to the needs of your neighborhood
- Finds **solutions that fit** your neighborhood
- Provides opportunity for the City to **educate** neighbors on issues that affect them
- Collects and **records the history** of your neighborhood
- Increases **resident involvement** in their neighborhood
